# FUGITIVE EMISSIONS SUMMIT AMERICAS

JUNE 25 - 26, 2018

George R. Brown Convention Center  
Houston, Texas, USA

## ***Our Chairman, Gobind Khiani, invites you to join us at the 2018 Fugitive Emissions Summit Americas***

I am honored to have the opportunity to serve you in the role of Chairman for the 2018 Fugitive Emissions Summit Americas Conference & Exhibition. I welcome the chance to participate in an event that examines a topic that is so relevant to today's industry. Aimed at highlighting leading topics related to the fugitive emissions community, the Conference spans various platforms, including oil & gas, chemical, petrochemical, power generation and more. This event serves as a unique opportunity for professionals to network and explore new emissions monitoring and reduction technologies; and work together to resolve common challenges.

As Chairman of the Steering Committee and an experienced valve SME for one of the largest engineering, procurement, fabrication, construction (EPFC) companies across the globe, I hope to inspire new engineers to develop expertise in the field of emissions reduction. From my experience, this is where seasoned engineers can contribute greatly, by inspiring a new generation to pursue this growing vocation.

Do you have an idea or topic that you would like to see discussed at the Conference? Please submit a short abstract of your work to our Steering Committee related to one of our Conference Tracks: **Air Pollution Control Technologies; Consent Decrees; Emission Control Technologies; International Emission Trends; Leak Detection Technologies; Regulatory Updates; Testing; or Valves & Flanges.**

Sincerely,

*Gobind Khiani*

**Gobind Khiani, M.Eng., P.Eng.**  
**Chairman, Fugitive Emissions Summit Americas 2018**
