### **Fugitive Emissions Summit Americas 2020**

Houston, TX — The third Fugitive Emissions Summit Americas will be held on June 16 and 17, 2020 at the George R. Brown Convention in Houston, Texas, USA. The conference and exhibition will once again serve as a meeting point for the greater community of end users, EPCs, distributors, manufacturers and suppliers, dedicated to improving workplace practices in efforts to reduce environmental damage caused by industrial emissions. The two-day event will be organized by KCI World and Messe Dusseldorf North America, and powered by Valve World.

The conference will cover such relevant topics as: leak detection and repair, optical gas imaging, remote monitoring, safety, best practices, testing & maintenance, regulatory updates, benzene waste operations, and emission control technologies. There will be keynote presentations by renowned experts in the field to discuss important and recurring themes raised in the emissions community. For those looking to obtain professional development hours, certificates of participation will be available for attendees.

The exhibition will bring together industry-leading companies, manufacturers, suppliers, fabricators and distributors to showcase their latest products and forge business relationships for the future. Experienced technical and sales staff will be available to answer questions, network and provide valuable information. A high level of expertise will be presented in an informal, social atmosphere aimed at exchanging useful information. In addition, the Speaker's Corner will host a variety of demonstrative presentations on recent emission control innovations on the expo floor.
